MODEL NUMBERS:
DC20-2M-SNGD-MLR

REFRIGERATED DISPLAY CASE

From conception to production, the Refrigerated Display Case was designed to be versatile and improve efficiency. The unit is a rotating refrigerated display case that features a robust design that will withstand rugged use.

APPLICATION

The superior design of our products encompass quality, user comfort, as well as aesthetics. It is our interest that our Refrigerated Display Case does not only look pleasing, but additionally provides function and service while complimenting the adjoining equipment in the service area.

CONSTRUCTION

To compliment our design, we incorporate quality materials assembled by true craftsmen. Our use of heavy gauge type 304 stainless steel throughout inhibits corrosion and provides the best in sanitary conditions.

EQUIPMENT SPECIFICATIONS

DIMENSIONAL DATA

DC20-2M-SNGD-MLR

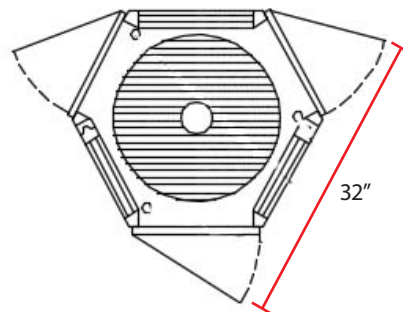

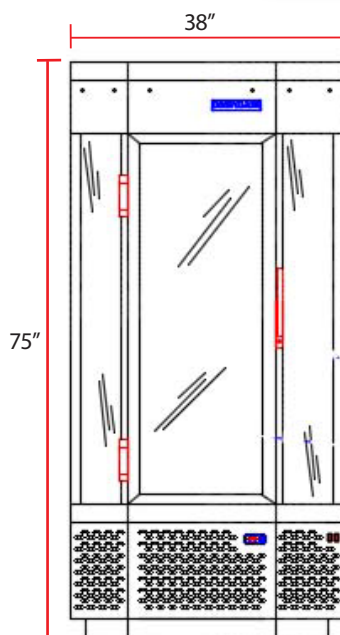

Width Overall (in / mm)	38 in / 965.2 mm
Depth Overall (in / mm)	32 in / 812.8 mm
Height Overall (in / mm)	75 in / 1905 mm
Weight (lbs / kg)	562 lbs / 254.91 kg

ELECTRICAL DATA

Voltage	115v
Total Amperes (per well)	RLA: 6.7 amps Max Fuse: 15

SHIPPING DATA

Width-Crated (in / mm)	44 in / 1117.6 mm
Depth-Crated (in / mm)	41 in / 1041.4 mm
Height-Crated (in / mm)	83.5 in / 2120.9 mm
Weight-Crated (lbs / kg)	762 lbs / 345.64 kg
